Getting Started

Tap **Field Map Icon** to enter the Field Map gallery.

On the maps page, Tap the map thumbnail that corresponds with the zip

code you were assigned. Tracker should already be enabled check the toggle above the list of maps and turn on **My tracks** if applicable. For tracking duration choose **Until switched off**

The application will automatically display your location.

Collection Process

to magnify a specific target simply touch it with two fingers and spread them apart.

You can check the accuracy of your GPS by tapping on the location icon.

By pressing the green icon, you will see the editing form along with the address of the point. Press the pencil icon to begin.

Fill out as much information as possible via the form.

Choose the level of structural damage. The application defaults to No Damage.

Take a photo(s) of the structure. This is an important step of the process.

Attach a video or photos from your photo gallery via the Attach button.
